

## **Assessment and Counseling Department**

### **Our Mission Statement**

To provide a wide range of services to assist students in attaining their academic, career and personal goals.

### **Our Vision Statement**

We recognize that the challenges that accompany being in school can lead to personal problems, interpersonal difficulties, and emotional stress. The Counseling Department can support students in their experiences in pursuit of their education, by addressing their career related needs, by promoting healthy and positive behaviors, views, relationships, and personal growth in a safe, confidential, and supportive environment. We will hold to the highest professional and ethical standards as we provide counseling services to address these challenges. We aim to provide the opportunity to foster this development to a culturally, economically, racially and religiously-diverse student body.
