GCC STEEP 2019

Deadline: 06/17/2019 05:00 PM

- **EVENT**
- **Event Date:** 06/17/2019 08:15 AM to 07/12/2019 05:30 PM
- Guam Community College Campus

   The core purpose for the Sustainable Technologies and Environmental Education Program (STEEP) is to equip students with an understanding of the general principles of Island Sustainability, Energy, Renewable Energy; Sustainable and Alternative Eco-Friendly Projects. Students will be able to connect and understand human impacts with Global Environmental Issues and Climate Change. Students will engage in informal education through lectures, media and hands-on activities that will further enhance their appreciation for the natural environment and for sustainable technologies. Basic skills for assembling, installing, and creating a solar pergola structure will be taught. In addition, students will learn about the basics of robotics, drones, and how to use pre-architecture software.

For more information about the program, please contact Francisco "Kiko" Palacios at 735-5639 or email francisco.palacios1@guamcc.edu.
