

Sustainability at GCC

At the Guam Community College (GCC) we understand the importance of sustainability, but most importantly we are committed to taking action. This webpage consist of information and data that truly showcases our commitment to sustainability and environmental stewardship

**Join us for the 2nd annual Marianas Terrestrial
Conservation Conference & Workshop**

November 13 – 15, 2018

Guam Community College

Free and open to the public

Early registration is encouraged:

<https://marianasterrestrialconservation.weebly.com/>

Job Fair Tuesday night November 13, 5-7pm at GCC

Networking Night at Guam Museum November 14, 6 – 8:30pm

RESEARCH CORPORATION
OF THE UNIVERSITY OF GUAM

For more information regarding the Marianas Terrestrial Conservation Conference and Workshop, please contact Joni Kerr at jonita.kerr@guamcc.edu

What is Sustainability?

Everything that we need for our survival and well-being depends, either directly or indirectly, on our natural

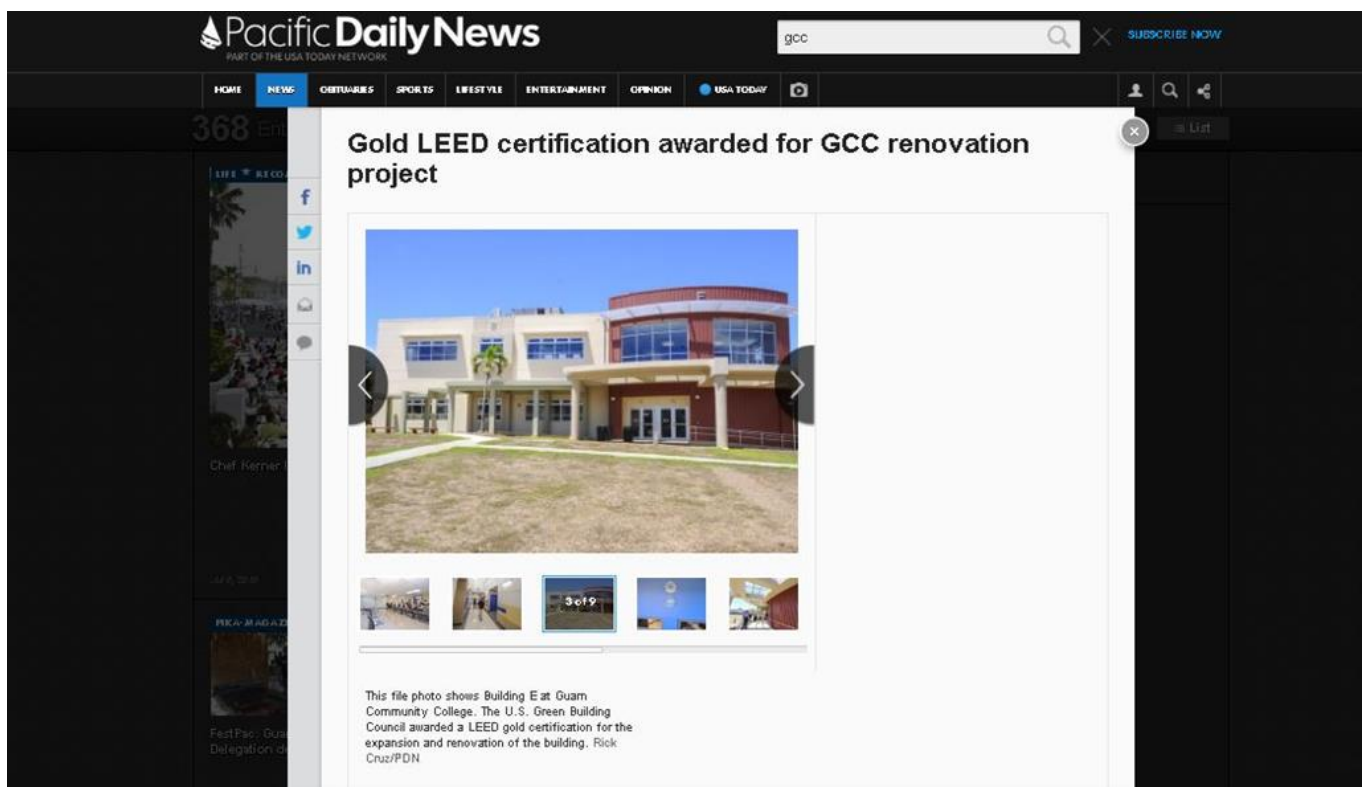

environment. Sustainability creates and maintains the conditions under which humans and nature can exist in productive harmony, that permit fulfilling the social, economic and other requirements of present and future generations.

Printing: Do You Have To?

Employees leave approximately 35 percent of their print jobs in the copy rooms. This significant waste of paper and toner also results in needless carbon dioxide (CO₂) emissions from printers.

It is recommended that you:

- Print on both sides or print more than one page or slide per side of paper.
- Use black and white instead of color. Using any color on the page, including logos or accent lines, incurs a color-usage cost, which is approximately 8.5 times more expensive than black and white.
- Instead of sending physical copies for meetings, share your document by sending a link. Attendees can view it on their laptops.
- Connect your laptop to the meeting room projector and display the document electronically.

The screenshot shows a news article on the Pacific Daily News website. The article title is "Gold LEED certification awarded for GCC renovation project". The main image is a photograph of a modern, multi-story building with a red and white facade, identified as Building E at Guam Community College. Below the main image are several smaller thumbnail images showing interior views of the building. The article text states: "This file photo shows Building E at Guam Community College. The U.S. Green Building Council awarded a LEED gold certification for the expansion and renovation of the building. Rick Cruz/PDN". The website header includes the Pacific Daily News logo, a search bar with "gcc" entered, and navigation tabs for HOME, NEWS, OBITUARIES, SPORTS, LIFESTYLE, ENTERTAINMENT, OPINION, and USA TODAY. A "SUBSCRIBE NOW" button is also visible.
