About Telecommunications

The GCC CTE Telecommunications program launched in August 2018 at Tiyan High School. Telecomm is GCC's newest career and technical education (CTE) secondary program. It is designed to specifically address the need for IT workers on island.

Students who complete all the program requirements, graduate, and then declare the Associate Degree in Computer Science program at GCC as their major, will have earned 19 credits in the Associate of Science in Computer Science postsecondary program through the Telecomm program.
