Academic Advising at GCC is a process that assists students in clarifying their life and career goals as they develop their educational plans. Advising goes beyond requirements and registration. It is an educational and career plan developed between the student and the advisor. Since academic advising is also a decision-making process, ongoing communication is the responsibility of both the student and their advisor.

Guam Community College partners with its students to succeed. This is reflected in the following activities:

- Assisting students in clarifying, articulating, and attaining academic and life goals;
- The student is expected to meet with his/her academic advisor regularly to plan an academic program and review achievement.
- Facilitating each student's academic adjustment to the campus;
- Educating students to assess academic progress and develop appropriate educational plans;
- Explaining and clarifying graduation requirements and academic rules and regulations;
- Serving as advocates and mediators for students; and
- Refer students to appropriate departments or programs to meet student needs.
