

# Ellucian Degree Works™

*Take a more direct route with academic planning tools*

Helping your students complete their educations successfully has always been a primary goal of academic advising, but it's not always easy. Too often, students encounter obstacles in their path, slowing progress to graduation, or worse, interrupting that progress permanently. Students seeking to transfer credits to your institution are often frustrated by a lack of transparency into which courses do and don't "count."

With a new emphasis in higher education policy on completion rates and time to degree, finding better ways to support your students as they design and complete academic plans is more important than ever.

## Fostering student success

Ellucian Degree Works™ is a comprehensive academic advising, transfer articulation and degree audit solution that helps students and their advisors successfully negotiate your institution's curriculum requirements. Students are less likely to take courses they don't need and more likely to stay on a direct path to graduation. Available as a fully integrated complement to Banner® by Ellucian's student information system, Ellucian Degree Works can also be easily integrated with any other vendor or homegrown student information system.

Ellucian Degree Works provides powerful academic planning tools and real-time counseling capabilities that create new efficiencies and foster more personal interactions between advisors and students. Your students receive the academic advice they need to succeed and your advisors gain new capabilities to help them counsel their students more successfully. The result? More successful transfers, increased retention and a shorter time to degree.

In addition, Ellucian Degree Works captures invaluable aggregate information, providing senior administrators with important metrics for planning future term course offerings, streamlining processes for more efficient cost management and keeping pace with new national and global higher education standards.

## Better access to academic advice

Ellucian Degree Works is built around a set of powerful web services that guide students through complex degree requirements, helping them negotiate the most effective path to graduation. Your institution can easily define general education, core, distribution, major, minor and concentration requirements. Students and advisors can easily track mandated competencies, remedial courses and test scores. With direct access to web-based worksheets and related hyperlinked information such as catalogue information, class schedules, transcripts, help desk services and FAQs, your students spend less time deciphering degree requirements and more time pursuing academic goals.

## Better support for academic goals

Ellucian Degree Works allows advisors and students to create detailed educational plans to guide every student to a more successful outcome. Advisor note capabilities help advising staff clearly articulate their advice to students and these notes follow students from advisor to advisor. Web-based exception processing for waivers and substitutions streamlines internal processes and helps students and advisors understand a student's current status faster. Ellucian Degree Works also provides powerful "what if?" scenarios and "look ahead" capabilities that allow students and advisors to understand the impact of every academic option. Finally, user-friendly GPA calculators keep students on track, eliminating tedious manual calculations.

## Better transfer articulation

An optional component, Ellucian Degree Works Transfer Equivalency, provides your staff with the tools they need to more efficiently determine how coursework from other institutions is assessed and applied at yours. And intuitive self-service capabilities mean that prospective transfer students can see immediately which course credits will be accepted for transfer.

## Better insight into research and reporting

Ellucian Degree Works includes an accessible storehouse of advice, audits and plans. Using SQL-compliant ad hoc report writers, academic planners can query the storehouse to report on how courses are being used to fulfill requirements, whether a student is meeting the terms of a financial aid award, which students are not following educational plans, or what required courses are missing from those plans. Also because audits and educational plans contain detailed academic advice on future course options, Ellucian Degree Works provides a valuable repository for academic planning—a virtual road map to future course work demand and emerging enrolment patterns.

---

# Ellucian Degree Works benefits

### Benefits for students:

- Real-time advice and counsel
- Interactive “what if?” scenario planning
- More transparent course and credit transfer
- Clear path to graduation
- Easy access to related services and advice

### Benefits for advisors:

- More personalised advising
