Disclaimer

The data presented in this Fact Book was gathered from numerous administrative departments and the college's data information access software, known as the Operational Data Store (ODS) within the Banner System. The GCC Fact Book is an attempt to present a comprehensive profile of the entire college. Given the purpose of this publication, the Guam Community College Fact Book represents the best information available at this time.

HISTORY OF THE COLLEGE

Guam Community College is a multi-faceted public vocational educational institution, created by Public Law 14-77 in 1977 to strengthen and consolidate vocational education on Guam. The College operates secondary and postsecondary vocational programs, adult and continuing education, community education, and short-term specialized training.

These programs are delivered both on and off-campus, in satellite programs and on site at businesses as needed. The College also serves as the State Board of Control for vocational education under the United States Vocational Education Act of 1946, 1963, and subsequent amendments. The College offers over 50 courses of study, which are job related, and prepares students for transfer to four-year colleges and universities with advanced standing in professional and technical degree programs. The College offers a variety of community service and special programs to prepare students for college experiences including English as a Second Language, Adult Basic Education, General Education Development (GED) preparation and testing, and an Adult High School Diploma program.

VISION

Guam Community College will be the leader in bringing together government agencies, business and industry, community interest groups, and education and training entities to help develop a technically competent work force of the quality and depth required to attract the necessary elements to finance and create a more diversified economy. Students, employers, and government leaders will look to GCC's excellent faculty, staff, and administrators for technologically current training and for answers to questions about employability, new technology, assessing outcomes, and effective planning. GCC will be a model to other colleges and agencies by demonstrating integrity, honesty, and openness. The college will form effective partnerships with industry and government. It will be a champion for finding responsible funding from reliable sources to meet its obligation of public trust.

MISSION STATEMENT - BOARD OF TRUSTEES POLICY 100

Guam Community College is a public, open access secondary and post-secondary institution. We serve the diverse communities of Guam as a

regional focal point for Micronesia within the Asia-Pacific Rim. We provide education and vocational training that is premised on lifelong learning. GCC is committed to providing quality-learning opportunities in occupational, vocational-technical, technological, academic, and continuing education reflective of our community and industry needs. (Adopted February 9, 2005 – Resolution 3-2005, Policy last reviewed: January 25, 2007)

FACILITIES AND FACULTY

The College is located in Mangilao on a 22-acre site. Standard classroom facilities are housed in permanent concrete buildings. Metal buildings are used primarily for vocational shop facilities. Additionally, GCC has a concrete building on the John F. Kennedy High School (JFK) campus which houses four of GCC's secondary programs offered at the school.

The GCC Foundation Building houses the library on its second floor. Instructional classrooms occupy the first floor. Shop spaces are provided for Auto Mechanics, Auto Body, Construction Trades, Welding, and Air Conditioning and Refrigeration. Special laboratories are used for instruction in the Allied Health, Computer Science, Office Technology, Networking Systems Technology, Visual Communications, and the Hospitality/Tourism programs.

The College faculty are well qualified by their education and experience to offer courses, which achieve the objectives of the College. During the Fall 2007 semester, the faculty numbered 100 full-time instructors and 59 true adjunct instructors. Faculty credentials are found at the back of the 2008 - 2010 student catalog.

ACCREDITATION

Guam Community College is a member of the American Association of Community and Junior Colleges, the Pacific Post-Secondary Education Council and the Western Association of Schools and Colleges. Guam Community College has been continuously accredited since 1979 by the Accrediting Commission for Community and Junior Colleges (ACCJC), Western Association of Schools and Colleges. Documents describing the accreditation of the College may be examined at the AVP's office; you may contact the Registrar for further information or to make arrangements to examine the accreditation documents.
