GCC offers high school
sustainable technologies clinic

Guam Community College is offering an exciting Sustainable Technologies Clinic over Christmas break for high school students 15-17 years old. Students will design and build marine robotics and compete with other teams. They'll assemble small-scale solar and wind energy systems. They'll learn about renewable energy and other sustainable technologies, and how these technologies can help our island and the planet to be more sustainable.

The cost for the six-day clinic, which will include a light breakfast and lunch, and sustainable technology equipment such as robotics, solar panels, and other exciting hands-on technology, is $200. Twenty slots at the clinic are being reserved for College Access Challenge Grant Program students. **Register by Friday, December 11ᵗʰ.**

Clinic information is as follows:
Dates: Dec. 21, 22, 23, 28, 29, & 30
GCC Student Center Training Room (Rm. 5108)
Cost: $200 per person (breakfast & lunch included

To register, contact Francisco "Kiko" Palacios at francisco.palacios1@guamcc.edu or call 735-5501/777-8087.
